SUMMARY

Computer Science Engineering student (3rd year) with strong fundamentals in software development and hands-on experience in Python, web technologies, and cloud platforms. Skilled in building and deploying real-world applications with a focus on clean, efficient code. AWS re/Start certified with exposure to deep learning and AI. Quick learner with a problem-solving mindset, seeking an entry-level software engineering role to contribute to production systems while growing technical depth.

EDUCATION

B.Tech – Computer Science Engineering & Software Engineering

Jul 2023 – May 2027

Ajeenkya D Y Patil University, Pune

SKILLS

Languages: Python, JavaScript, HTML5, CSS3, SQL

Web & Frameworks: Tailwind CSS, REST APIs, Vercel Deployment

Tools & Platforms: Git, GitHub, AWS (EC2, S3, VPC)

CS Fundamentals: Data Structures & Algorithms, DBMS, Operating Systems

Other: Deep Learning (GPU-accelerated), AI/ML basics, Data Visualisation

PROJECTS

Personal Portfolio Website

Aug 2024 – May 2025

HTML5 · Tailwind CSS · JavaScript · Google Sheets API · Vercel | krushna-portfolio-sand.vercel.app

- Built and deployed a fully responsive personal portfolio with animated UI using AOS (Animate On Scroll) library for a polished user experience.
- Integrated Google Sheets as a backend for the contact form, enabling zero-cost serverless form submissions without any backend server.

Weather Web Application

Jan 2024 – Apr 2024

HTML · CSS · JavaScript · OpenWeatherMap API · Vercel | weather-app-chi-three-17.vercel.app

- Developed a real-time weather app consuming OpenWeatherMap API, displaying temperature, humidity, wind speed, and weather conditions for any searched city.
- Implemented dark mode toggle and dynamic background changes based on weather conditions for an intuitive user experience.

CERTIFICATIONS

Tata Data Visualisation: Empowering Business with Effective Insights – Forage Job Simulation Jan 26 - Jun 2026

AWS re/Start Certificate – Amazon Web Services

Sep 2025 – Dec 2025

Accelerating Deep Learning with GPUs – IBM Developer Skills Network

Feb 2026 – Apr 2026

Green Skills and Artificial Intelligence – Edunet Foundation – Skills4Future

Jan 2026 – Feb 2026

Software Developer – Saylor Academy

Sep 2025 – Nov 2025

Operating Systems – Scaler Topics

Jan 2025 – Mar 2025

ACHIEVEMENTS

- Tata Data Visualisation Job Simulation (Forage, Jun 2026) – Completed end-to-end simulation for Tata Consultancy Services: prepared strategic questions for senior leadership and created executive-level data visualisations to support decision-making.
- Smart India Hackathon 2025 – Participant, Ajeenkya DY Patil University internal round

- AWS re/Start Graduate – Completed Amazon's competitive cloud skills bootcamp covering networking, security, databases, and core AWS services
- Professional Content Creation – Recognised at Ajeenkya DY Patil University
